

SUMMARY

I'm a web developer with a passion for user-friendly designs and clean back-end work. I am passionate about responsive web design and connecting users with information that enriches their lives. I'm a bit of a data nerd.

Bryce Bortree

Web Developer

EXPERIENCE

FULL STACK WEB DEV STUDENT

General Assembly | Seattle, WA | 2016

12 week full stack web development programming immersive with 480 hours of collaborative classroom instruction, 50-70 hours per week of technical coding work, and 4 web applications. Proficient in Javascript, HTML, CSS, Ruby on Rails, the SEAN stack, and AngularJS.

PROJECTS

- Engineered **The Artr**, a modern avant garde social media image generator optimized for mobile devices integrating JavaScript, Express, Node.js, Bootstrap, and the Flickr and Twitter APIs focusing on usability. Worked with a UX design team.
- Designed, developed, and launched **Writetime**, a writing application that emphasizes daily habit. The back-end was built with Node.js, Express, and incorporate SQL queries to the database. The front-end UI incorporated Javascript, JQuery, HTML, and CSS.
- Built **Sharkfile**, an ambitious Content Management System platform,, with a group of four people. Acted as Product Manager in implementing file upload, chat, video chat, and task features.
- Committed to learning the front-end libraries Skrollr and Foundaiton for a weekend Hacakthon to create **A Flowered Significance**, a short story that includes Javascript, HTML, and CSS for an immersive storytelling presentation.

BOOKSELLER

Elliott Bay Book Company | Seattle, WA | 2015-2016

Maintained upkeep of the store's 150,000 title inventory by daily shelving, register, and collaborative information desk duties using excellent communication skills to meet customer requirements.

- A staff recommendation was a bestseller for six months, selling over 100 units and connecting with clients' tastes against competitive new releases.
- Led the donations team in giving over \$3,000 worth of merchandise to more than 30 local charities over the course of three months.

CAREGIVER/COMPANION

Plymouth Healing Communities | Seattle, WA | 2014-2015

Engaged with residents living with mental illness to create community and foster their integration into society after a stay in the state's largest public hospital.

- Maintained resident records and updated medical teams on status via email and in person communication.
- Assisted 12 individuals in re-entering their communities while staying flexible, consistent, and problem solving, and using leadership skills.

REFERENCE DESK ASSISTANT

Bucknell University | Lewisburg, PA | 2013-2014

Assisted patrons with physical and digital bibliographic searches using database research as well as media like newspaper archives and microfilm resources. Supervised a staff of student workers.
